

MASSIVE STORAGE

Lots of room for a portable, extra hose and other accessories.

BENEFITS

No sacrifice in suction. Suction of a duct truck at a fraction of the price.

Trailer size can vary from 7'x12' or larger. We can supply or you can supply your own trailer.

Order the parts and build it yourself.

Use your own vehicle: you no longer need to have a dedicated truck just for your business.

GET THE SUCTION OF A DUCT TRUCK WITHOUT THE TRUCK.

EXTERIOR BAG FILTRATION

Gives you the presence of a duct truck, showing your customers that you mean business, while at the same time filtering out thousands of CFM of air flow. Weather lid included (not shown in picture).

CLEAN OUT BIN

Gone are the days when rain and moisture would turn your clean out area into a concrete mess. All debris gets blown into a simple plastic drum. This means no more trips to the dump as the debris can simply be removed with a garbage bag.

HAVAC

Suction comes from our new HAVAC vac system. A gas engine drives the suction with only one moving part. Suction is comparable to any competing truck on the market.

COMPRESSOR

Standard 30.1 CFM 13HP Honda Engine. With that kind of CFM you will get the job done with time to spare. The compressor is independent from the vac. You no longer have to start your vac system when all you need is air pressure. Perfect for doing jobs like dryer vent cleaning, blowing out HVAC units, etc. Other models also available.
